

CONTACT B

## SPECIFICATION

耐電圧 : AC500V 1分間  
DIELECTRIC STRENGTH:500V AC FOR ONE MINUTE.  
接触抵抗 : 50mΩ 以下  
CONTACT RESISTANCE:50mΩ MAX  
絶縁抵抗 : DC100Vにて100MΩ以上  
INSULATION RESISTANCE:100MΩ MIN.AT 500V DC.

取付穴参考寸法  
Mounting hole dimension

取付板板厚  
Thickness of mounting board  
 $t=1.0\sim 1.8$

|                                             |                  |            |                                                                                                                      |                                  |       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |  |  |  |  |  |           |       |      |        |       |       |       |      |     |         |     |     |     |     |                    |  |  |                 |                            |  |  |  |  |  |               |                                  |  |  |  |  |  |  |         |  |  |  |  |  |                                                                                                                      |  |  |  |
